---

**Based upon** the Principles of Ayn Rand’s Objectivism, *The Page of Reason* is a cause-and-effect analysis concerning the future prospects for human life, on Earth. And it incorporates an action plan for elevating those prospects.

**Since the advent** of primeval languages, our human minds have been assaulted by ever-more, ever-various, ever-contradictory, and ever-evasive irrational ideas. And, on countless occasions throughout the ages, willfully chosen and enacted to their final social conclusions, irrational ideas have caused vast destitution, destruction, and death.

Our primeval natures will always be with us. However, irrational ideas are just simplistic conceptual errors. They are just ideas that have become entangled with the persistent and pernicious, primeval principle that: *anything-goes!*

With great life-enriching effects, we are able to overcome primeval anything-goes ideas by wisely employing our reasoning skills. And it is only by such wise reasoning that we will ever become able to consistently cultivate our pursuits of happiness.

Such a wise desire notwithstanding, it is impossible to know the truth, the whole truth, and nothing but the truth—about the facts of human rationality, in detail. However, by well-formulated principles, we can profitably progress towards that important purpose.

To be useful, to be stable, to be good, to be true, such well-formulated principles must subsume the broadest reasonably possible range of presently known facts, and they must be well-anchored within objective reality, by incisive rational-work.

**Let there be light!** And there *is* light, a human light: reason. And, as we proceed, by principles, to further separate the light from the darkness, we will see that this light *is* good.

**Having reasonably absorbed** a broad range of objective knowledge, Orrin became acutely aware of rationality’s unique role as our distinctive human attribute, and that reason, rationality’s method of performing work, is the essential tool for each of our life-enriching pursuits. Then, as he worked hard to further develop his limited writing skills, for this one sole purpose, Orrin produced *The Page of Reason*.

**Orrin** lives and works from his home in Leander, Texas, surviving there with never-give-up! Jumbo, his Jack Russell Terrorist friend. Further biography resides within “Part 3: The Beginnings.”
